CAPABILITY STATEMENT

TEKTON Security is a Service-Disabled Veteran Owned Small Business (SDVOSB) with the tactical and technical expertise to plan, design, integrate, and maintain security systems of any size and complexity. We follow a proprietary methodology to give you the desired level of visibility and control over your environment. Due to our military and police force training, we understand the inherent challenges to securing property and protecting life. With a focus on safety, compliance, and transparency, we take pride in delivering your project on schedule and within budget.

CORE COMPETENCIES

Planning
